JACOB HELLGREN

Software Developer

PROFILE

I recently graduated with a Bachelor's degree in Software Development. I have experience in full-stack development, including both Android and web development, as well as working with agile methodologies. I am looking for opportunities where I can grow as a developer and continue to challenge myself. I am accustomed to taking responsibility and have previously taken on new and challenging tasks, which I look forward to continuing to do.

UTBILDNING

Kristianstad University | 2023–2026

B.Sc. in Computer Science – Software Development

Courses in programming, full-stack development, databases, machine learning, big data, operating systems, and agile software development.

Blekinge Institute of Technology | 2026

Lean Adaptive Software Testing Course

The course provided practical experience in software testing, including test planning, test design, and tools such as JUnit, EvoSuite, and Jenkins.

WORK EXPERIENCE

Skånemejerier | 2021–Present

Warehouse Worker

As a warehouse worker, I have had several responsibilities, including order picking. I also worked as a summer substitute in outbound logistics with additional responsibilities:

- Booking and handling customer orders
- Ordering load carriers/crates from SRS
- Preparing consignment notes and transport documentation

Wikan Personal | 2021-2022

On-Demand Warehouse Worker

Performed warehouse work through staffing assignments at Hultén Försäljning and Skånemejerier, which eventually led to full-time employment at Skånemejerier.

ACTIVITIES

Kristianstad Kampsportcenter | 2024 - Present

Deputy Board Member
