JACOB HELLGREN

Software Developer

ABOUT ME

I have recently completed a Bachelor's degree in Software Development. I have experience in full-stack development, including both Android and web development, as well as working with agile methodologies. I am seeking roles where I can grow as a developer and continue to challenge my skills. I am comfortable taking responsibility and have previously taken on new and challenging tasks, which I look forward to continuing.

EDUCATION

Kristianstad University | 2023-2026

B.Sc. in Computer Science - Software Development

Relevant coursework includes programming, databases, machine learning, big data, operating systems, and agile software development.

Blekinge Institute of Technology | 2026-2026

Lean Adaptive Software Testing course

This course covered software testing, including test planning, test design, and tools such as JUnit, EvoSuite, and Jenkins.

WORK EXPERIENCE

Skånemejerier | 2021 - current

Warehouse Worker

As a warehouse associate, I was responsible for tasks such as order picking. I also worked as a summer substitute in outbound logistics with extended responsibilities:

- Booking and handling customer orders
- Ordering pallets/crates from SRS
- Preparing shipping and transport documentation

Wikan Personal | 2021 - 2022

On-call employee - Warehouse Worker

Performed warehouse work through staffing assignments at Hultén Försäljning and Skånemejerier, which resulted in a full-time position at Skånemejerier.

ACTIVITIES

Kristianstad Kampsportcenter | 2024 - current

Board Deputy Member
